MANY SECTIONS EAGER

FOR JAPANESE COLONIES

Artesia, N. M., May 22.—F. J. Eukins has returned from California where he spent several weeks on business. While there he had some correspondence with the local chamber of commerce relative to importing Japanese into the Pecos to take charge of small tracts of land for trucking purposes. The subject got into the press reports with the result that at San Francisco Mr. Lakins received letters from various sections of the country addressed to him as Japanese immigration agent and Japanese representative soliciting Japanese as tenants and buyers of small tracts of land for intensive cultivation.

Mr. Lukius believes from his correspondence that there is sufficient demand over the country for Japanese to relieve California of a large portion of her Japanese population. The Japanese willing to move to more friendly parts, but want Improved Iand with sufficient water to insure crops.

The law requires the governor to issue two proclamations a year, one for Arber day and the other for Thankssiving. The Arbor day proclamation for the current year has already been issued, but there must be another in 1914 and there must be two Thankssiving proclamations before there is another session of the legislature.

Three hundred dollars is the cost of publishing a proclamation. Those proclamations alone will cost \$900.

The law permits the governor to issue rowards, no one to exceed \$500, for the capture of criminals. Owing to the state of the fund, it is not likely that the governor will ofter any rewards during the next 19 months.
